E6GOLF Update 1.6 features improvements to the existing version of E6GOLF and includes: improved texture resolution, which significantly enhances the look of each of the courses; changes to the software engine lighting for a more life-like feel; and improved physics, making putting on a simulator feel truly authentic.

TEXTURES
E6GOLF has more than doubled the resolution of all terrain textures, added a variety of cut patterns to tee boxes, fairways, and greens, along with region specific textures that provide each course its own unique look.

LIGHTING
Realistic morning and evening lighting bring the courses to life like never before, while a variety of photo-realistic sky domes creates the perfect backdrop.

ONLINE TOURNAMENTS
E6GOLF has been laying the ground work for an ever-expanding online golfing experience. Tee it up with golfers from around the world to practice, improve, compete and have fun. With your data stored securely in the Cloud, you can review previous rounds, tournaments, practice sessions, achievements and more.

PHYSICS
The ball and terrain physics have been enhanced to reproduce the feel and accuracy of putting.

USER INTERFACE
We redesigned the entire front end User Interface, providing a more comprehensive menu system with multiple ways to quickly navigate. Along with the redesigned interface we’ve added the ability to create Player Profiles.
E6 CLOUD

E6 CLOUD is a revolutionary new software subscription service that will open a whole new world for virtual golfers. Every device using E6 Cloud will have access to exclusive new features, including: Quick Play Games, Online Events, dynamic statistic tracking and more!

Subscribers will have access to fresh new content throughout the year.

MANAGEMENT TOOLS FOR COMMERCIAL FACILITIES

Leagues are the lifeblood of indoor golf centers, and E6Golf is making it easier than before to manage your players. Now, you can organize 4-round Stroke Play Events, Closest to the Pin and Long Drive contests with E6 Cloud. Create multiple Events to host a season long League with a points winner at the end!

E6Golf Online will automate scores and standings with a Virtual Clubhouse, where players can compare scorecards. This makes it easier to engage your customer outside of your facility with E6Golf Online, resulting in a higher likelihood of return visitors.

TRAINING TOOLS

TruGolf has been working with PGA Teacher of the Year, Mike Malaska, on all new content designed to make learning the game of golf at your facility simpler! Now, online instruction will be available to anyone using E6.

E6 CLOUD offers exclusive content that is updated monthly! Get access to explosive games, designed to improve your swing.

- Demolition Driving Range
- Carnival Shooting Gallery
- Golfpocalypse
- Sports Arcade
- Skill Shot Challenge
- Junior Challenge Course

E6 Cloud offers new content for Kids & Beginners, designed to make learning to golf fun.

- Easy Tee dramatically reduces Slice and Hook, while boosting power
- Junior Challenge Course is an 18 hole shortened course, perfect for juniors
- New, fun and engaging games for kids

ONLINE EVENTS

Players of all skill levels are invited to compete for cash, prizes, and glory in Online Events. Additionally, team Events will begin in 2018!

- Closest to the Pin
- Stroke Play
- Long Drive

FOR KIDS & BEGINNERS

E6 Cloud offers new content for Kids & Beginners, designed to make learning to golf fun.

- Easy Tee dramatically reduces Slice and Hook, while boosting power
- Junior Challenge Course is an 18 hole shortened course, perfect for juniors
- New, fun and engaging games for kids

4 NEW COURSES ANNUALLY

Subscribers will also receive automatic downloads of 4 new courses each year!
